Instructions on how to clear browser cache

1. Google chrome:

Clear browsing data

Past Incognito mode (Ctrl+Shift+N) may come in handy next time.

Obliterate the following items from the beginning of time:

- Browsing history
- Download history
- Cookies and other site and plugin data
- Cached images and files - 16.5 MB
- Passwords
- Autofill form data
- Hosted app data
- Media licenses

Clear browsing data  Cancel

This clears synced data from all devices. Some settings that may reflect browsing habits will not be cleared. Learn more
2. **Internet Explorer:**

Delete Browsing History

- **Preserve Favorites website data**
  - Keep cookies and temporary Internet files that enable your favorite websites to retain preferences and display faster.

- **Temporary Internet files and website files**
  - Copies of webpages, images, and media that are saved for faster viewing.

- **Cookies and website data**
  - Files or databases stored on your computer by websites to save preferences or improve website performance.

- **History**
  - List of websites you have visited.

- **Download History**
  - List of files you have downloaded.

- **Form data**
  - Saved information that you have typed into forms.

- **Passwords**
  - Saved passwords that are automatically filled in when you sign into a website you've previously visited.

- **Tracking Protection, ActiveX Filtering and Do Not Track**
  - A list of websites excluded from filtering, data used by Tracking Protection to detect where sites might automatically be sharing details about your visit, and exceptions to Do Not Track requests.
