

Privileged Visitors (PVs) –

The Privileged Visitor (PV) category is available in exceptional circumstances when needed. This is a special category, not a contingent worker classification, which describes an individual who requires site access. This is a visitor who is "not paid" by Intel but needs to come on site to support Intel's mission. Below are reminders as a Sponsor of a PV:

- Intel does not give day-to-day work instructions and direction.
- The same work is not performed by Intel employee company-wide.
- Visitor does not have a Supplier ID and is not under service agreement.

Examples of PVs include:

- Intel Board of Directors
- Joint Business Collaboration
- Government Tax Auditor
- Government Building Inspector
- Law Enforcement/Public Safety
- Joint Venture
- Subsidiary Worker
- Divested and Aligned Worker
- Visiting Professor or Student under University Research Agreement
- Emeratus
